Audi SQ8 – Adaptive air suspension plus, eAWS, sport differential and all-wheel steering

For an ideal driving experience, a vehicle requires not only first-class engines, but also outstanding suspension components. On the SQ8 this includes the electronically controlled air suspension with a continuously adaptive damping system, the electromechanical active roll stabilization (eAWS) and all-wheel steering. In the optional advanced suspension package, customers also benefit from the sport differential.

Audi SQ8 TFSI: Combined fuel consumption in l/100 km: 12.9–12.2; combined CO2 emissions in g/km: 294–277

Information on fuel/power consumption and CO2 emission figures given in ranges are dependent on the chosen equipment level of the car.
